

Bargello

Collect threads and weave beautiful tapestries to order

Overview

You are a highly-esteemed tapestry artist inspired by the designs of the Bargello sisters. There are many admirers of your work who will pay to see their favourite patterns and colours feature in your needlepoint.

But you're not the only artisan in the city and competition is rife. Manage your threads and equipment to create beautiful tapestries while attracting sponsorship from wealthy supporters.

How To Play

In turn order, players select actions by placing workers in different locations.

Actions are resolved in location order.

You can gain new commissions, gather threads from the shop or factory surplus, upgrade your equipment and weave tapestries.

Threads must be managed carefully in order to weave tapestries at the right time - as the order of threads in your tray matters.

If you manage to weave tapestries that fulfil multiple commissions, you'll score very highly! The most commercially successful tapestry weaver wins.
