HOW TO PLAY

Use one hand to grab frogs from the centre of the table and place them in your box. Place frogs to make the pattern on your card. Avoid cats!

When your box is filled, grab a colour marker and place it on the scoreboard. The penultimate player to finish triggers the end of the round.

Calculate your score. Empty spaces score -1. Cats stop you scoring. Players who filled their box **expand** it to move to the next level.

Players on higher levels have more frogs to grab. The game finishes when one player has completed level 5.
