

Butterflies

Five 'roll and colour' games

Overview

Five different butterfly themed games that all use the same 'roll & colour' mechanic.

Make stripy caterpillars, mirror monarch wings, create inviting aster gardens, gather flocks and define butterfly habitats.

Play on your own or with any number of people.

1+ players

20-30 mins

Age 8+

Components

- A book or pad of scoresheets for each game
- 2 custom six-sided dice
- 5 coloured pens or pencils.

Features

Standardised system across all games

Underlying educational content

Create beautiful pictures as you play

Simultaneous or solo play

How To Play

TWO RED or ONE YELLOW

Choose one of the five games to play.

Give a scoresheet to each player.

Roll both dice each turn. Each player chooses the number from one die and the colour from the other.

Play is simultaneous.

The colour indicates the pen you use. The number determines the size or location of the area of object you colour - it's different for different games.

When you have run out of options, the game ends for you.

Aim to beat your opponents or your previous score.
