DON'T COUNT YOUR CHICKENS

... unless you've counted your Roosters too!

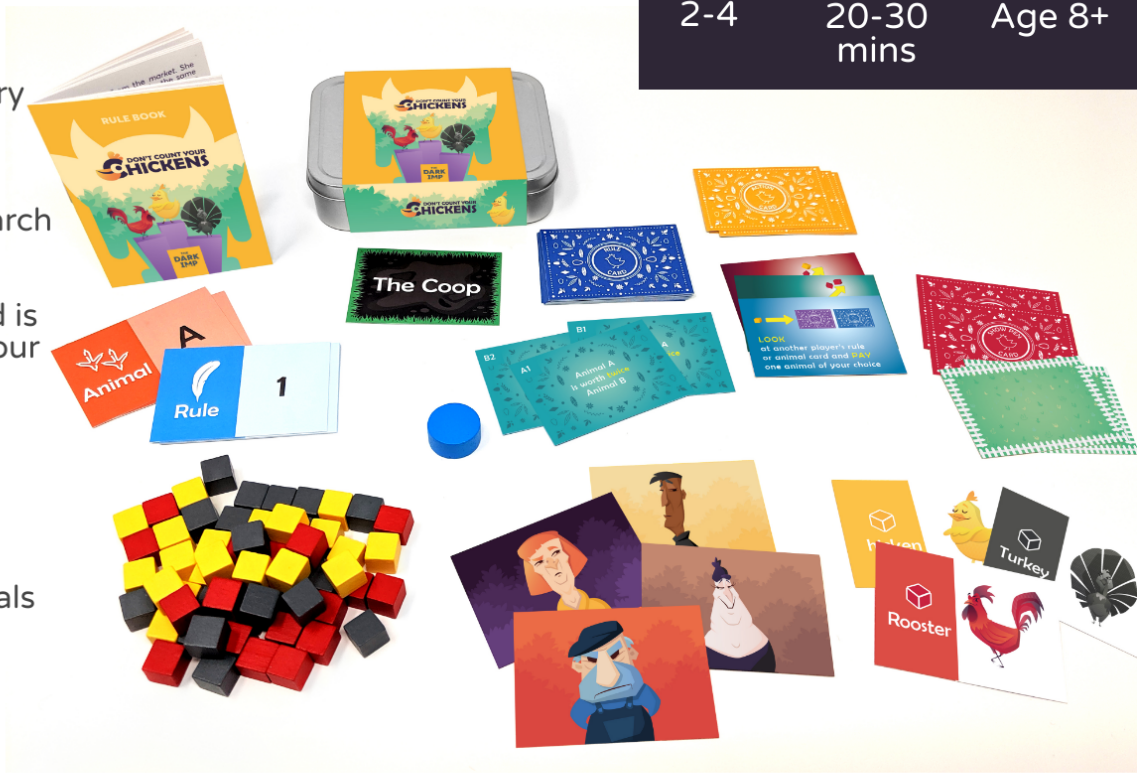
2-4 | 20-30 mins | Age 8+

Overview

Your neighbourhood has developed a new obsession: competitive poultry farming!

You want to gather the most valuable flock, but your research has been, well paltry!

Discover how much each bird is worth, while while building your feathery collection.



Components

- 45 cards
- 60 cubes or wooden animals
- First player token

Features

A deduction game with 2592 unique set ups

Tension between gaining resources and discovering information

2 mini expansions available

How to Play

On your turn, place your character on an action card to take that action. Some actions allow you to take birds, others enable you to gather information.

Peek at rule and animal cards to work out how much each animal is worth and to discover special scoring conditions.

At the end of the game, reveal the rule cards and calculate which player has the most valuable flock. They are the winner.
