

Can-Canagrams

THE HIGH KICKING ANAGRAM GAME

Overview

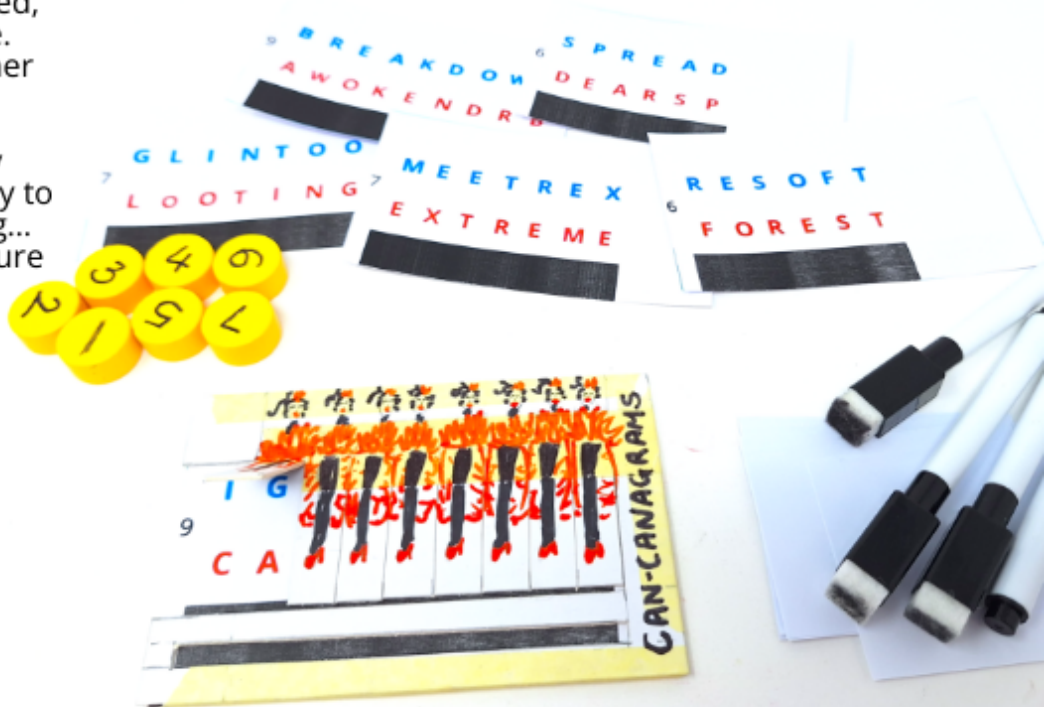

In each round you'll see two growing words. Both words are slowly revealed, as each leg kicks, one letter at a time. The words are anagrams of each other but only one is an actual word.

Aim to be the first player to correctly identify the correct word. Guess early to beat the others and risk being wrong... or wait for more information to be sure of being right.

Components

- 100 cards
- 1 card holder
- 8 number tokens
- 8 pens & dry erase boards

How to Play

Secretly put an anagram card in the card holder.

Kick up one column of letters at a time.

The two growing words are anagrams of each other, but only one is a real word.

The number of letters is shown on the card.

When you think you know the word, secretly write it down and grab the lowest number token.

Other players may see more of the word.

Reveal your answers, starting with the player with the lowest number token. The first player to get the word right takes the card. Most cards wins!
