Where every card is lying to you... just a little

Overview

3-8
players

15
mins

Age
6+

Sounds Like a Penguin is a speed-slapping party game where your eyes and brain can't agree on what you're seeing.

Every card shows one animal in the picture and another in the text, creating a frantic, hilarious clash that keeps everyone on edge.

With players racing to spot matches and avoid traps, the game is a wild mix of quick thinking, fast hands, and constant laughter.

Misdirection

Speed slapping

Party play

How to Play

The active player makes a call to a certain animal in one of two ways...

If they say, "Looks like a Pig", the other players race to slap a card with a **PICTURE** of a pig.

If they say "Sounds like a Pig", the other place race to slap a card with the **WORD** pig written.

If the required card is not face up, they race to slap the deck.

Some cards are traps!

If a card shows a word that matches the picture, you should never slap them! They give you negative points at the end of the game.

Anyone who slaps a correct card wins the card, which is a point. The player who slapped fastest becomes the next active player.

Most points wins!
