Doom Scroll

You know you should’nt keep scrolling... but it’s hard to stop. Swipe through the feed, push your luck, and slap at exactly the right moment to steal the cards before someone else does.

About the Game

One player holds the phone and starts swiping cards out one at a time, building a face-up swipe pile. Meanwhile, every other player secretly holds a card from the deck. At any moment, a player can slap the pile to stop the scrolling. If the active player slaps first, they win all revealed and hidden cards. If another player slaps, everyone reveals their secret cards—if three or more cards of the same suit are present, the slapping player wins the cards; otherwise, the active player takes them and keeps scrolling. When all the cards are gone, the player with the most cards wins.
