

DOUGHNUT SHOP

Master the puzzle. Fulfil your orders.

OVERVIEW

Ready to build the sweetest engine? In this doughnut shop challenge, your greatest asset is also your biggest problem: a non-stop supply of ingredients!

Your goal is to turn a chaotic avalanche of flour and frosting into a perfectly streamlined production line.

Carefully manage your workflow, fulfil lucrative orders, and prove you have what it bakes to turn raw potential into pure profit.

HOW TO PLAY

Select a card. Give the doughnuts on the card to your neighbours. Choose 1) Take 1 doughnut and keep the card as an order or 2) Take both doughnuts and discard the card.

Feed your new doughnuts into the top row of your kitchen, distributing across columns as you like and pushing other doughnuts down.

Match the doughnuts sitting in your Counter or Display to complete an order. Completing orders gives instant bonuses and end game points. But both orders and doughnuts can expire - triggering penalties

When you complete an order, move your truck and drop a token in a city district. 3 tokens gives a franchise and a permanent bonus and end game points.
