

Moonlit Market

A tense, tight, puzzly tableau builder

Overview

2-4 players

45 mins

Age 10+

As night falls over the forest, hedgehog entrepreneurs gather around the bonfire to acquire specialist goods for their growing markets.

Running a successful market means making tough choices: Which stalls should your hedgehog staff to generate income? And when should you retire a powerful stall to claim the points?

Balance immediate income with long-term planning. The most prosperous market wins... so organise your hedgehogs, tend your moths, hoard your acorns, and build the market of your dreams under the starlight!

Components

- 3 ring-shaped boards
- 99 tiles
- 150 tokens
- 4 hedgehogs

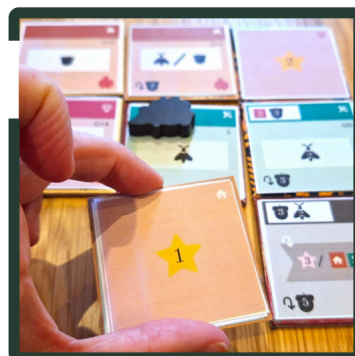

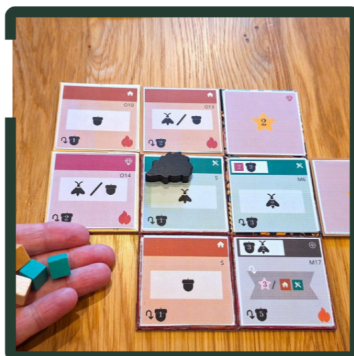

Features

Tableau building

Timing & spacial puzzle

Simultaneous Play

How to Play

Each player drafts one tile from the quadrant of the gathering rings that's in front of them. Tiles in the centre are more costly but more powerful.

Place your new tile in your market. Then move your hedgehog. Receive income from the stalls within 1 space of your hedgehog.

Spend acorns to flip a tile near hedgehog. Only flipped tiles score, but they no longer have power or produce income.

Rotate the gathering rings clockwise to change the available tiles. Game end is triggered when one player has flipped 9 tiles. Most points on flipped tiles wins!
