

THE STASH

Influence the bosses. Build your stash.

OVERVIEW

Five crime bosses run this city, and everyone pays their dues.

Your job is to keep them sweet with a steady stream of tribute while quietly building your own private stash on the side. At the end of the day, only those who paid up get paid out.

Keep an eye on your rivals to see who they seek to influence and outsmart them with clever card play.

Win the bosses' favour, and your stash is yours to keep.

HOW TO PLAY

Choose 2 cards from your hand to play - one high card and one low card.

Play one of these cards face down to your STASH.

Play the other card face down to your TRIBUTE in that boss's column.

Now you may activate that boss's ability to upgrade or move cards!

Finally, draw two new cards from the draw decks.

When one deck runs out, players reveal the cards in their tribute.

For each boss, the player who played the highest total cards to the TRIBUTE, wins the right to score that boss's cards in their STASH.

Most points wins!

Oooh! I can duplicate a card in my tribute.

I have the most influence with 2 bosses!
